FUNDING APPROVAL FOR THE LA SALLE COMMUNITY CENTRE

RURAL MUNICIPALITY OF MACDONALD – The community of La Salle has received funding approval from the Provincial Municipal board to build a new multi-use community center in La Salle.

The new multi-use facility will include a 500 seat community center that will provide countless opportunities for cultural and recreational events. Other features of the proposed facility will include change rooms for indoor and outdoor recreational programs, fitness center, commercial kitchen and additional multi-purpose activity rooms. A new outdoor skating rink and upgrades to the sports fields will also be included.

The new facility organizing committee along with the RM of Macdonald will continue applying for all available grant opportunities. An extensive corporate fund raising campaign will be launched that will include opportunities for businesses to purchase naming rights. The targeted timeline is to break ground in the fall of 2011.

The La Salle Community Centre board of directors would like to express our sincere thanks to the counsel and staff of the RM of Macdonald for working with us to make this vision a reality.

Additional information about this project is available at www.lasallecc.com.
